

REMARKS

The Examiner has stated that it is not clear whether the claim means that the support substrates are secured back-to-back or from one surface side to another surface side. By this amendment, Applicants have made it clear that the substrates are secured in a back-to-back co-alignment manner as originally intended. Thus, Applicants respectfully submit that the claims clearly set forth how and where the support substrates are secured together. For the arguments previously submitted, it is respectfully submitted that the claims in their present form are now in conditon for allowance and such action is respectfully requested.

Respectfully submitted,

Attorney for Applicant(s)
